

*In these economic times, companies are tightening their budgets*

- ◆ SSC Corporate Security client goes out to bid because of cost restrictions

**The Situation**

The current state of the economy is causing many corporations to review their expenses and make financial decisions based on cost savings, not vendor qualification, or satisfactory service. One client was forced to review all outside vendor contract services in an effort to streamline and minimize costs.

**The Solution**

SSC Corporate Security conducted an analysis of the current uniformed security program and identified areas for significant cost savings. A comprehensive review of the security post instructions took place with the client's Security Director and the SSC Operations Manager to determine which services were mission critical and which services could be eliminated or reduced in the spirit of savings. The SSC Management Team offered alternatives for reduced coverage hours.

**SSC Benefits**

- ✧ SSC met the demands of the client with ease and efficiency
- ✧ Security Program Analysis conducted via teamwork creates a sense of accomplishment and comradely between client and security team
- ✧ SSC Corporate Security maintains integrity and pride in meeting clients requirements and continues to provide high quality service to client
